# Make it Snappy<sup>®</sup> Tools

Premium Power Tool Accessories  
Proudly Made in the USA

## About Us

Founded in a basement machine shop in Minnesota in 1962, we are a family-owned company, currently operating in Texas. We manufacture premium drilling accessories for use in power drills, impact drivers and drill presses.

The 1/4" hex power bit shank found on most of our tools has become an industry standard, being accepted in quick change chucks and impact drivers everywhere. Our namesake is the "snap" that's heard when a drill bit, driver bit or other tool is pushed into our patented quick change chuck. By utilizing the quick change system, craftsmen and hobbyists can transition from pre-drilling to driving quickly and easily.

As a 3rd generation family business, we take great pride in each product we provide. By using superior materials, cutting-edge machinery and patented technology, we deliver industrial quality tools at an affordable price, "Proudly Made in the USA".

Ironman Drill  
Bit Adapters

IRONMAN  
DRILL BIT ADAPTERS

**Purpose Built** for demanding metalworking, fabrication, installation, and maintenance jobs

- Precision machined 1/4" hex shank adapter for use with 3-jaw chucks, quick change chucks, or impact drivers
- Sturdy, screw machine length HSS twist drills are **Made in the USA** and have a Heavy-Duty surface treatment for increased wear resistance and edge toughness
- 135° split point resists walking for accurately located holes

• Designed •  
• Machined •  
• Assembled •  
in the USA

**Part # 42216**

# Gold Screw Countersinks

- Drill the pilot hole and countersink or counterbore for screws in one easy step. Countersink to drive the head of the screw flush with or slightly below the surface
- The 82° countersink angle matches the angle on the head of most wood screws. Easily control depth using an optional stop collar
- Made of thru-hardened steel for long cutting life
- Our signature gold set screw will securely hold the twist drill. Easily adjust the pilot depth or replace a dull bit by simply loosening the large, hardened set screw

•Designed•  
•Machined•  
•Assembled•  
in the USA

## Consistently countersink or counterbore with the Premium Rotating Depth Stop

**Part #  
43032**

**Free rotating  
ring prevents  
damage to the  
workpiece**

**Large radiused  
cavity reduces  
chip packing**

**Unique mounting channel** allows the depth stop to be used with all  $\frac{3}{8}$ " and  $\frac{1}{2}$ " Snappy® countersinks

**Precision chrome ball  
bearings** allow the ring to rotate freely when the desired depth is reached

**Specially designed  
clamping nut**  
securely mounts the stop  
to the countersink to  
ensure consistent depth

# SD-3 Flat Bottom Counterbores

- Drill a pilot hole or clearance hole and counterbore a flat bottomed hole in one step
- Great for lag screws, lag bolts, washer head screws, T-nuts & more
- TiN (Titanium Nitride) coated twist drill offers superior wear resistance
- Made of thru-hardened alloy steel for long cutting life
- Precision machined with integrated 1/4" hex shank
- The unique geometry of the cutters provide excellent chip clearance and cutting performance, even in hardwoods

•Designed•  
•Machined•  
•Assembled•  
in the USA

- Use **Snappy™** tapered plug cutters to cut your own plugs to conceal screws and other fasteners. Use scraps to match wood grain, making the plug nearly invisible or, for a decorative look, use a contrasting wood
- **Snappy™** plug cutters produce a tapered plug, so you get a tight fit with no glue needed. The chamfered nose makes it easy to get the plug started into the bore
- Updated design featuring radial relief on the inside diameter of the cutter for reduced drag and improved performance. Precision-milled cutting edges and outer reliefs ensure a smooth, clean cut for a consistent, tight-fitting plug
- Thru Hardened to provide excellent wear resistance and a long cutting life
- Always cut to the full depth of the cutter until a radius or chamfer can be seen, clearing chips as needed

•Designed•  
•Machined•  
in the USA

**3 Pc. Set**  
**Part # 43300**

- Insert chamfered end first and drive the plug into bore. Trim excess flush with surface using a chisel or flush cutting saw and finish sand

- The plug remains in the board and can be broken out with a screwdriver or can be sawed to free the plug

- For use in drill press only, with board clamped to table

Tapered Plug Cutters	Part #	Plug Size Ø	Recommended Maximum RPM	List Price

# Tapered Drill Countersinks

- Drill a pilot hole and countersink or counterbore for tapered wood screws in one step
- Use for tapered screws or as a clearance hole for straight screws
- Made of thru-hardened alloy steel for long cutting life
- Precision machined to work with **Snappy™** quick change chucks or any tool designed to accept a 1/4" hex shank
- Two large hardened set screws securely hold the countersink to the tapered drill to prevent slippage

3 Pc. Set  
Part # 44300

- Countersink to keep screw heads flush with or slightly below the surface
- Counterbore to drive screw below the surface and plug the hole

- Designed•
- Machined•
- Assembled in the USA

Part # 44008

- The TCT (Tungsten Carbide Tipped) cutters provide superior wear resistance and cut a clean countersink or counterbore even in tough materials
- Special twist drills feature a TiN (Titanium Nitride) coating for long life
- Features an 82° countersink angle, the same angle as on the head of most wood screws
- Countersink to keep screw heads flush with or slightly below the surface
- Counterbore to drive screw below the surface and plug the hole

•Perfect for laminate countertops, melamine, exotic hardwoods and other tough materials

**3 Pc. Set  
Part # 46033**

# Quick Change Chucks & Magnetic Bit Holders

- Our patented **Snappy™** quick change chuck allows fast changes between drilling & driving
- Accepts all tools with a 1/4" hex power bit shank
- Durable all steel construction, heat-treated for excellent wear resistance and strength
- Simply pushing the bit in will lock it firmly into the drive channel with a hardened chrome ball bearing
- Quickly remove the bit by pulling back the knurled sleeve

**Part # 40011**

## 2½" & 6" Magnetic Bit Holders

- Designed•
- Machined•
- Assembled•
- in the USA

**Part # 40026**

**Part # 40023**

- Powerful neodymium magnet for maximum screw retention

- Two-piece design for high torque applications
- Wire ring securely holds 1/4" insert bits as well as bits with a 1/4" power bit shank
- Precision machined 1/4" hex power bit shank
- Perfect for impact drivers

Quick Change Chucks & Magnetic Bit Holders	Part #	Description	List Price
	40011	Snappy™ Industrial Quick Change Chuck	\$14.99
	40023*	2½" Magnetic Bit Holder	\$12.99
	40026*	6" Magnetic Bit Holder	\$14.99

\*Recommended for use with driver bits only

•**Snappy™** drill bit adapters utilize a collet to adapt standard round drill bits to a 1/4" hex power bit shank to be used in quick change chucks and other tools designed to accept a 1/4" hex shank, like impact drivers

•Use the 3/8" adapter for pocket hole step drills!

## Part # 42024

\*Step Drill/Drill  
Stop not included\*

•Designed•  
•Machined•  
•Assembled  
in the USA

•Use the Bench Mount Shank Wrench to easily replace drill bits

# Self-Centering Hinge Bits & Shelf Pin Drill Guides

- Use self-centering hinge bits to accurately drill pilot holes in hinges, handles, drawer slides and other hardware
- Ensures screws will be straight and flush for proper mounting of hardware
- Use **Snappy™** shelf pin drill guides to drill holes for shelf pins
- The knurled barrel easily unscrews to clean out chips that may get into the tool's body
- Precision machined to work with **Snappy™** quick change chucks or any tool designed to accept a 1/4" hex shank

•Designed•  
•Machined•  
•Assembled•  
in the USA

**3 Pc. Set  
Part # 45300**

- The hardened nose bushing centers itself in hardware for a perfectly centered pilot hole
